

Commissioner David Byrne
DG Health & Consumer Protection
Rue de la Loi 200
1047 Brussels
1st December 2003

Dear Commissioner,

Council Recommendation of 12.07.1999 on the limitation of exposure of the general public to electromagnetic fields (0 Hz to 300 GHz) invites the Commission, within five years, to prepare a report taking into account further scientific data and advice

I would be grateful if you could inform me of the state of play concerning this report and whether the Commission intends to seek to update the Council Recommendation in light of scientific research since 1999.

In particular I am concerned with the new TETRA masts and the reseach findings of Dr. G J Hyland which I believe should be taken into account by the Commission.

I look forward to your response.

Yours sincerely

Dr. Caroline Lucas MEP
